

CalSIEC, PSRSPC, UASI members and other interested parties,

Attached you will find an agenda for the upcoming CalSCIP Implementation Workshop, at Mather, Ca called by CA-OES, scheduled for Tuesday, February 26, from 9:30 am to 2:00 pm. The format of the meeting will be a workshop in nature in order to maximize the feedback of all interested parties on the SCIP.

The focus of the workshop will be to lay out a plan for work on the 16 CalSCIP Initiatives, as well as to address CalSIEC governance issues. We will be reviewing and discussing the Draft CalSIEC Charter, and gathering comments to be incorporated into the next draft to be approved at the next CalSIEC meeting.

We will also hear updates on:

- final channel names for the 800 MHz interoperability channels
- FEMA Region IX's new concept: Regional Emergency Communications Coordination Working Groups
- the PSIC grant

This SCIP implementation workshop initiates an aggressive work-planning effort for all aspects of interoperability in 2008. OES is encouraging all interested parties to attend. For those who can't attend in person, a conference line is available: 1-866-742-9494 (3127358#).

If you have not already, **please RSVP to Sam Williams, State OES Interoperability Communications Coordinator** (samuel.williams@oes.ca.gov).

Lunch will be available for \$8.00 (pizza and soda).
